## Outlook Dim In 172-Day Copper Mining Strike

SALT LAKE CITY (AP)—The first nationwide copper strike enters its 172nd day today with the beginning of the New Year holding little more encouragement for quick settlement than 1967—with one exception.

Phelps-Dodge Corp. and the striking unions met at Tucson, Ariz., for three consecutive days last week and recessed talks until Friday.

Both sides emphasized the recess was mutual and was not to be interpreted as a break in negotiations.

Gov. Calvin L. Rampton of Utah, whose state has been hard-hit by the strike, has referred to the Phelps-Dodge talks as "a bit of a bright spot on the horizon."

Rampton said Phelps-Dodge probably would be the first to settle and said that settlement might help local bargaining.

Thursday the strike will have become the longest for Kennecott Copper Corp.'s western mining division (Utah, Nevada, Arizona and New Mexico) — surpassing the 173-day strike of 1959-60.

The strike also will set a Montana record Jan. 10. The previous record-length strike for Anaconda Co. was 177 days, also in 1959-60.

### 1,500 Idle In U. P.

In Michigan, the strike has idled some 1,500 copper miners and workers in related industries.

The current strike, which began July 15, is estimated to have had a national economic impact in excess of \$300 million thus far.

Kennecott and the striking unions resumed joint talks last Wednesday for the first time since Oct. 19, but they broke off again Thursday after a second brief meeting called by the Federal Mediation and Conciliation Service. Both sides said an impasse had been reached.

Anaconda and American Smelting and Refining Co., another member of the copper industry's Big Four, have no bargaining sessions scheduled.

### Ask Fact-Finding

More than 60,000 workers, primarily in the western copper states, have been idled by the strike which has halted more than 95 per cent of domestic copper production.

Western states' congressmen and governors asked President Johnson several times last year to appoint a fact-finding committee to explore the possibility of invoking provisions of the Taft-Hartley Act to send the strikers back to work for an 80-day "cooling off period."

Several senators also talked about introducing legislation which would have given the strikers the right to vote whether to return to work while negotiations were under way.

So far, none of the efforts has had any effect.

## Weather

ESCANABA AND VICINITY—Mostly cloudy with chance of snow flurries today, high 7 above. Generally fair and very cold tonight and Wednesday. Low tonight, 12 below zero. Winds variable, becoming north to northwest, 10 to 20 mph, this afternoon. Thursday outlook, fair and quite cold. High yesterday, 8 and low overnight 5 below zero. Precipitation probabilities: today, 30%; tonight, 20%; Wednesday, 20%.

Upper Peninsula—Mostly cloudy this afternoon with light snow or snow flurries likely in most sections. Highs this afternoon zero to 10 above. Snow flurries likely, continuing near Lake Superior, and partly cloudy in interior sections and colder tonight. Wednesday: partly cloudy and continued cold with a chance of snow flurries near Lake Superior. Lows tonight generally 5 below to 15 below zero but locally as low as 25 below in the western interior. Highs Wednesday zero to 8 above.

Sun sets today at 4:15 p.m. and rises Wednesday at 7:30 a.m.

## Foreign Travel Curb Asked

# Investment Abroad Restricted By LBJ

WASHINGTON (AP) — The Johnson administration's declared war on the widening gap in the balance of payments would press every American into the defense of the dollar—if Congress goes along.

President Johnson pegged higher taxes as the keystone of a New Year's program he described as "firm and decisive." It incorporates the first mandatory controls U.S. in history on American investment abroad and an appeal to Americans to travel only in this hemisphere if possible.

The investment controls were imposed under existing law. Congress will reconsider later this month Johnson's 10 per cent income tax surcharge proposal.

Government officials held out the possibility of further restrictions on travel such as a tax on Americans going overseas or limits on the amount of money they may take with them. Officials said this must be worked out with Congress.

### \$3 Billion Cut, Aim

Henry H. Fowler, secretary of the treasury said Americans should realize that travel

## Manistee Has Jan. 1 Blackout

MANISTEE (AP)—Some 6,000 Manistee County residents were without electricity New Year's Day as a result of a midmorning power failure. The blackout, caused by a main circuit failure, lasted from 10 a.m. to 11:15 a.m.

## News In Brief

MONROVIA, Liberia — President William V. S. Tubman, starting his 25th year as president of this republic founded by freed American slaves, will visit President Johnson in Washington Feb. 27 and 28, U. S. sources said today.

DETROIT — U. S. Senator Wayne Morse, D-Ore., said last night the United States is headed for a war with Red China which cannot be won with either conventional or nuclear weapons.

NEW YORK — An agreement reached in Columbus, Ohio, guaranteeing 140 jobs for Negroes on Ohio State University construction projects looks like a clear-cut victory for the National Association for the Advancement of Colored People. But to NAACP staff who negotiated it, the pact shows that pressures must be applied unrelentingly against unions and builders.

DETROIT — Federal and state mediators today are attempting to arrange meetings between striking teamsters and representatives of the Detroit News and Detroit Free Press. Teamsters overwhelmingly rejected new offers of both papers last week.

SAIGON — South Vietnamese police said today they arrested several Chinese counterfeiters and seized \$250,000 in fake U. S. \$5 bills, foiling what they called a Red attempt to destroy the economies of South Vietnam, Cambodia and Laos. They said the Red plan was to trade the U. S. bills for equipment to counterfeit currency of the three Asian countries.

PHNOM PENH, Cambodia — Prince Norodom Sihanouk said that he was not giving U. S. forces permission, even tacitly, to enter Cambodia in pursuit of Communist forces. However, he still seemed to leave the door ajar.

LANSING — Michigan's three million or so income taxpayers will have not one but two forms 1040s this year — the old federal stand-by, and a brand new form now being mailed out by the state. Deadline for filing the new state form is April 30.

abroad is damaging to the country.

The entire program is designed to slash the dollar drain by \$3 billion. It includes an effort to cut government spending abroad by \$500 million this year and an expansion of exports to increase the trade surplus by at least that much.

In outlining the program Monday at a Johnson City, Tex., news conference, the President revealed the dollar drain this year would reach \$3.5 billion to \$4 billion—highest in seven years.

Johnson also listed higher Vietnam war costs, more U.S. spending on foreign travel, bigger investments abroad and a smaller gain than expected in the trade surplus.

Reaction Cheery  
Preliminary reaction to the plan from Congress seemed cheery with Chairman William Proxmire, D-Wis., of the Senate-House Economic Committee, calling it "exactly the kind of decisive and comprehensive action the situation called for."

Fowler said the program offers some pain for Americans and will mean the foregoing of some pleasures.

He and other administration officials have in the past consistently ruled out a tax on departing tourists as one way to close the travel gap which during 1967 reached an estimated \$2 billion, a record.

This type of restriction, however, would be up to Congress which likely would think twice about it in an election year.

Controls on investment overseas would supplant a voluntary

program and cut the deficit by \$1 billion, bringing total investment down from \$5 billion in 1967 to \$4 billion.

Explain Program  
A tightening of voluntary controls on bank lending abroad would save another \$500 million. Secretary of State Dean Rusk said Undersecretary Nicholas Katzenbach will lead a U.S. mission to Europe to explain the program and seek cooperation. Another mission to Asia will be led by Eugene Rostow, undersecretary for political affairs.

Johnson again urged wage-price restraint by both labor and management and predicted adoption of his 10 per cent surcharge proposal.

"I do not hold to the view that wage and price controls are imminent at all," he said when asked about a weekend comment by Secretary of Labor W. Willard Wirtz that without higher taxes the question of wage and price controls must be faced.

When he met Husain in the palatial surroundings of the British-built presidential palace, Romney commented that he had just missed the president last summer when Husain visited Michigan State University.

Husain said he had been asked while in the United States how a person like himself, running for president, could leave his country and interrupt campaigning. He said he told his questioners that India's president does not run, but stands for election.

Romney, an announced Republican presidential candidate, replied that a candidate would not dare just to stand in the United States.

Romney, who leaves for Paris tonight on the last leg of his round-the-world tour, saw Minister of State for Food A. P. Shinde and Minister of State for Family Planning Sripriti Chandrasekhar, and Deputy Prime Minister Morarji Desai and Home Minister Y. B. Chavan.

The governor talked with Mrs. Gandhi Monday about world and regional problems including Vietnam, U.S. - Indian relations, U.S. foreign aid and family planning. Their conversation lasted 45 minutes.

# 2nd Heart Transplant By Barnard Succeeds

## Evaluate Peace Tender

SAN ANTONIO, Tex. (AP) — President Johnson says the administration is carefully evaluating reports that North Vietnam might enter into peace discussions if the United States was to unconditionally stop the bombing of that country.

Johnson said at a news conference Monday at the LBJ Ranch that he was familiar with newspaper reports quoting North Vietnamese Foreign Minister Nguyen Duy Trinh to that effect.

Hanoi Radio broadcast a statement Monday saying that North Vietnam "will talk" when the United States has "unconditionally stopped its bombing and all other acts of war" against the North.

"We are evaluating them," Johnson said of the reports.

The President, who has been in Texas since the day after Christmas, has signed 21 bills—but the Social Security measure — to be signed by midnight — would be the most important legislation of the batch, so far.

It will mean bigger benefit checks beginning in March for 24 million persons. The minimum retirement pay will go from \$44 to \$55 a month, the maximum from \$142 to \$160.50. When a retired worker's wife reaches 65, the sum would in-

## N.Y. Transit

## Pact Reached

NEW YORK (AP) — The first regular work day of the new year was a happy one for New Yorkers today. They had subway and bus service after weeks of worry about the threat of a transit strike.

As a bonus, they had word from Mayor John V. Lindsay that the Transit Authority said its contract settlement with two unions Monday would not cause a raise in the 20-cent fare in the "foreseeable future."

The fare had gone up 5 cents as a result of the settlement that ended the crippling 12-day subway and bus strike which started New Year's Day two years ago.

The Transit Authority and two unions representing its employees reached agreement on new two-year contracts shortly before 7 a.m. Monday. The original strike deadline of 5 a.m. had been extended two hours as 39 hours of almost continuous bargaining neared a climax.

The new agreements are subject to ratification by the members of the AFL-CIO Transport Workers Union (TWU), which represents 36,000 transit employees, and the AFL-CIO Amalgamated Transit Union, which represents 1,700 others.

## Town Emptied By Fiery Rail Crash

DUNREITH, Ind. (AP) — Thunderous explosions from ammonia-filled tanker cars after two freight trains crashed forced a mass evacuation Monday night and set fire to two businesses and several homes.

All 236 residents of this east-central Indiana community were evacuated safely.

Three firemen and a policeman suffered minor injuries. The Butterfield Canning Co. plant and a service station were destroyed by flames, which also spread to 10 houses. Some were empty migrant worker dwellings, officials said.

A westbound Pennsylvania Railroad train derailed and side-swiped an eastbound Pennsy freight, W.R. Sheets of Zionsville, brakeman on the westbound train, said he believed a rail broke under the 75th car of the 98-car train. Flames broke out almost immediately, he said.

Officials quickly removed townspeople from the danger area of the chemical-laden tankers.

Mrs. Mabel McGuire, who

lives a half block from the accident scene, said one explosion "looked like the whole world was on fire."

"Our back door was blown off the hinges," she said. "There were a lot of small explosions and one big one that lit up the whole sky."

The blast was felt in areas 25 miles away. A pilot said the explosions shook his small plane as he flew over Dunreith, which is about 35 miles east of Indianapolis.

Traffic was rerouted from busy U.S. 40 which parallels the Pennsylvania main line through Dunreith. A motorist, William Will of Cambridge City, said he heard the crash and saw several freight cars rolling down the highway toward him.

"I whipped the car into an alley and got out of there," Will said.

Despite heat from the burning wreckage, crewmen were able to separate the front part of the train and remove it from the village. Rolland Walls, assistant fire chief in Richmond, ordered firemen and volunteers to stay away from the burning wreckage until dawn. Walls said there were "four to five dangerous substances that could cause an explosive reaction with water."

crease by 50 per cent. But there will be higher withholding taxes — as much as \$52.80 in 1968 on those earning \$7,800 or more. Employers pay an equal tax.

While busy with many domestic problems, the President was studying foreign developments in Vietnam and Cambodia, as well.

He told the news conference he was "very hopeful that we

can make advances toward peace" in 1968, adding, "we are pursuing every possible objective."

He said he felt the enemy knows it can no longer win a military victory in Vietnam. But, he added, the North Vietnamese would have to give some evidence of their willingness to seek peace before he could predict such prospects.

SAIGON (AP) — U.S. officials today called the allies' New Year cease-fire "the bloodiest of all" Vietnam war truce attempts after a Viet Cong force of 2,500 men broke the stand-down and smashed into an American outpost, killing 23 infantrymen and wounding 153.

The guerrillas' 9th Division, augmented by North Vietnamese replacements, lost 348 men in its attack on the base camp in the shadow of Black Virgin Mountain, 62 miles northwest of Saigon and eight miles from the Cambodian border, U.S. officers said.

The Communist thrust, spokesmen said, gave the allies second thoughts about a 48-hour truce that has been accepted in principle for Tet, the Lunar New Year Jan. 30.

While American headquarters tried to assemble an accurate picture of the collapse of the cease-fire from field reports, U.S. warplanes resumed bombing of North Vietnam with the end of the allied 36-hour truce at 6 a.m. Saigon time.

Hanoi, meanwhile, accused the United States of raiding many "populated areas" during the truce. It did not elaborate on what constituted "raids," but said U.S. aircraft had "repeatedly intruded into the airspace" of several provinces.

On the basis of incomplete communiques, the truce-breaking ground fighting, as vicious as that of normal operations, cost the allies at least 56 dead and 231 wounded. This compared with 14 Americans and five South Vietnamese killed and 27 Americans and seven South Vietnamese wounded during the 48-hour 1967 New Year's truce. The 1968 figures involved 168 shooting incidents, 10 fewer than the year before.

Calculations were complicated because the Communists' announced three-day truce ended at 1 a.m., five hours before the allied stand-down.

U.S. officials said the Viet

Cong raid on the U.S. 25th Infantry Division camp in the jungles just above the old Michelin rubber plantation town of Dau Tieng near the Cambodian border came one hour and 20 minutes before the Red truce expired.

The Reds reportedly threw 2,500 men from the veteran 271st and 272nd regiments at a defending force of about 500 Americans manning 105mm howitzer batteries. The guerrillas were repulsed several times before contact broke off at 5 a.m.

American jets attacking with bombs and rockets and C47s firing miniguns flew support missions overhead before the Viet Cong pulled out.

The battle scene in Tay Ninh Province long has been considered one of the most dangerous areas in South Vietnam. It is northwest of the Communist "Iron Triangle" stronghold and was the scene a year and a half ago of a massacre of the South Vietnamese army's 7th Regiment.

In Tay Ninh alone, there were at least five other Viet Cong assaults Monday night and early today, accounting for two American dead and 23 wounded.

The New Year holiday weekend death toll was below advance estimates and a National Safety Council spokesman today gave credit for the improvement to bad weather and good driving.

The death total reached 572 compared with 484 on a nonholiday weekend of identical length. "There is nothing immutable about the death rate," a spokesman for the council said. "We don't have to just accept it."

"The major reason we believe is that the behavior of drivers must have changed," the spokesman said. "How it changed, we don't know."

"Weather certainly was a consideration, too," he said. Record-breaking cold and heavy snow in some sections apparently kept some persons at home.

The death toll was below that of a nonholiday period of equal length. For a comparison, The Associated Press counted Traffic deaths for the period from 6 p.m. Friday, Dec. 15, to midnight Monday, Dec. 18. There were 484 deaths.

The traffic death toll during the last three-day New Year holiday was 469.

The highest toll for any New Year period was 564, compiled during a three-day celebration at the start of 1966. The lowest total for a three-day New Year observance since World War II was 269 in 1949.

Mobile Radar At Bay Shore

BAY SHORE (AP)—The Air Force says mobile radar units will substitute for the fire-damaged Bay Shore radar installation during practice bomb runs over Lake Michigan this winter.

A multimillion-dollar fire roared through the installation last Tuesday. The Bay Shore facility was to have helped score the practice bomb drops, to be conducted by Strategic Air Command B58 Hustler supersonic bombers.

## Retired Dentist Gets Heart Of Brain Bleeder

CAPE TOWN, South Africa (AP) —Groote Schuur Hospital announced today Dr. Christian N. Barnard had performed another successful heart transplant operation.

A brief bulletin issued at 4 p.m.—9 a.m., EST—said the estimated five-hour transplant to retired Cape Town dentist Philip Blaiberg, was successful.

Blaiberg received the heart of Clive Haupt, 24, who collapsed Monday from a brain hemorrhage.

Haupt was a mulatto—a man of mixed race. Further details were not immediately available on the operation.

It was the world's third human heart transplant. Barnard performed the first only one month ago on Louis Washkansky, 53, who lived 18 days with his new heart before succumbing to pneumonia.

Rare Blood Type

Doctors had been waiting anxiously since Saturday for a good donor heart to give 58-year-old Dr. Philip Blaiberg a new chance for life. Finding a donor for Blaiberg had posed a difficulty, because of his rare B-positive blood type. But putting the heart of a mulatto into a white man's body apparently posed no problem for Barnard in racially segregated South Africa.

Surgeons began to operate on Blaiberg at about 10:30 a.m. Cape Town time, it was reported. The epochal heart transplant operation on Washkansky Dec. 3 took about five hours and it was expected this operation would take about the same time.

Collapsed At Beach

The donor was reported to be Clive Haupt, 24. His wife of three months, Dorothy, was with him when he collapsed on Fish Hoek Beach Monday. He was understood to have suffered a brain hemorrhage.

Barnard's surgical team spent several hours studying the transplant possibilities Monday night before proceeding.

Blaiberg is married and has a daughter, Jill, 19, believed to be working on a communal farm in Israel.

He was admitted to Groote Schuur Hospital three weeks ago. He suffered his first coronary 14 years ago but his wife, Eileen, said his heart "completely gave out" about nine months ago.

Washkansky's transplanted heart came from a 25-year-old woman injured fatally in an auto accident. It continued to function until Washkansky's death, attributed to pneumonia.

Doctors had said they hoped to take extra precautions against infection after future heart transplants.

South African Born

Two days before Washkansky's death, Blaiberg said: "I hope to be next. I feel lousy."

After Washkansky died, Barnard had visited Blaiberg and asked whether he still wanted a transplant. "He said he was quite confident it would work one day," Barnard reported.

He was born in Oudtshoorn, South Africa, and his home now is in the Cape Town suburb of Rondebosch.

Blaiberg trained at London's Royal Dental College and in 1931-32 was captain of the college rugby team. After finishing his studies he returned to South Africa. War broke out a year later and he went on active duty. He commanded a dental unit in Ethiopia and reached the rank of captain.

The world's second heart transplant operation was done in Brooklyn a few days after the surgery on Washkansky. Dr. Adrian Kantrowitz used the heart of a dead infant to replace that of a dying infant, but the baby lived just 6½ hours.

## Mink Pelts Stolen

TRAVERSE CITY (AP) — State Police today investigated the reported theft of 340 mink pelts valued at \$4,000 from a warehouse near Traverse City. Owner Larry M. Wakefield told troopers the raw pelts disappeared between Dec. 26-30. They were stored in a warehouse Wakefield operates for mink ranchers in the area, State Police said.

## McCarthy Named To Press Office

Edward McCarthy, a veteran of nearly 20 years of Escanaba Daily Press employment and for the past year its advertising director, today was named business manager of the Press.

Ralph Kaziatek, general manager of the Press, made the announcement and said that McCarthy will continue in his present duties as advertising manager as well as assuming the new responsibilities of the business manager.

Primarily he will assist Kaziatek and be second in charge of mechanical, advertising and business departments of the Daily Press.

McCarthy, a son of Mr. and Mrs. John McCarthy — his father is a retired long-time employe of the Press — joined it in 1949. He is married to the former Patricia Bovin of Gladstone and they live at 2004 5th Ave. S., with their five children: Edward, 14; Colleen, 13; Patricia, 11; Kathleen, 4 and Timothy, 2.

McCarthy, an alumnus of St. Joseph High School of Escanaba and Michigan State University, is a member of the Escanaba Kiwanis Club, Highland Golf Club, the Serra Club and the Barbershoppers.

Edward McCarthy

## ITT Cancels ABC Merger

NEW YORK (AP) — Directors of the International Telephone & Telegraph Corp. have voted unanimously to cancel ITT's agreement for a \$2.8 billion merger with the American Broadcasting Companies Inc.

The proposed merger, which would have been the largest in broadcasting history, was fought by the Department of Justice on antitrust and other grounds.

The ITT directors voted Monday at an unusual New Year's Day meeting, only hours after the Dec. 31 deadline that had been set for either party to withdraw from the two-year-old merger agreement.

The directors cited long delays and indications of more delays in obtaining final approval of the consolidation.

Leonard H. Goldenson, president of the American Broadcasting Companies Inc., said he regretted the ITT decision. He said that while the merger was pending, ABC's corporate hands were tied, but now it plans to "move vigorously and forcefully to strengthen and expand our company's interests and growth." He indicated that other mergers may figure in ABC's plans.

## Optimist Club Seeks Members

Members of the newly formed Escanaba Optimist Club are currently conducting a membership drive to obtain the necessary quota of active members to receive their charter from Optimist International.

Acting local President Stewart Hill is extending an invitation to any man who might be interested in joining the organization to attend one of the regular meetings, held on Wednesday afternoons at 12:15 in the Old Towne Restaurant, or send a postcard to Escanaba Optimist Club, % Stewart Hill, Old Towne Restaurant, Escanaba.

The objects of Optimist International are: To develop optimism as a philosophy of life; to promote an active interest in good government and civic affairs; to inspire respect for the law; to promote patriotism and work for international accord and friendship among all people; and to aid and encourage the development of youth.

The basic objective of the Escanaba Optimist Club, once it has been chartered, will be to promote a greater respect for the law and law enforcement personnel. Through this principle, Escanaba Optimists will work mainly with the youth of the area in educating and developing young men to become helpful, useful citizens of the future.

In extending the invitation, Hill asks that interested men call any of the members if further information is desired. Members include Acting President Stewart Hill, Acting Secretary Bob Bink, Acting Treasurer Dick Derusha, Lawrence Ambeau, Atty. John Beauchamp, William Benson, Willard Carne, Roland Corsten, Donald Crawford, Joseph DeMay, Dr. John R. LeMire, Ronald Mayville, Dr. William Savard, Richard Stichman and Mel Taylor.

TWELVE CHILDREN at the Good Will Farm Houghton, knew that there's a Santa Claus after a visit by members of the 410th Civil Engineering Squadron from K. I. Sawyer Air Force Base. Squadron members contributed more than \$200 to a gift fund for sleighs, games, basketball and volley ball sets and other playthings for the children from broken homes. Hams, turkeys, fruits and other foods were included in Santa's pack, and a check for \$35. One of the girls at the home plays a game with members of the Squadron. M/Sgt. James Hunsicker of New Jersey was coordinator of the project. (Air Force Photo)

## Mead 1967 Sales Up, But Profits Will Be Reduced

Although demand for many paper grades and paper products leveled off in 1967, Mead Corp. expects its total sales for the year to rise slightly above the record \$633 million chalked-up in 1966, said H. E. Whitaker, board chairman of the big paper making corporation, in a year end statement today.

Whitaker stated: While uncertainties about Vietnam, spiraling interest costs, and a possible tax increase make specific sales forecasts difficult, here's how we see the various markets for our products as we head into 1968: Paper — There's been evidence of inventory liquidation over the past several months. While it's difficult to assess present inventory levels by paper users, we tend to agree with some of the paper industry economists who believe inventories are down to the point at which customers will need to depend more on new purchases. They're predicting four to six per cent increases in demand for various grades in 1968.

Pulp — It's no secret there's more pulp capacity than demand right now. We knew it was coming, and we recognize that capacity and demand probably won't be quite in balance for the next 15 to 18 months. While Mead sells some of the pulp it manufactures, we also buy other types in nearly the same quantity. So, the overall effect of the soft market for pulp does not effect our performance drastically.

Demand for containerboard is reasonably strong at present. Our container plants have had very good business in the last several months. Mead Packaging, which specializes in packaging and packaging systems for a wide variety of consumer products, is expected to enjoy better business in '68. One of the Packaging Division's major product lines is multiple packaging for soft drinks and beer. Soft drink sales were off this year because of an unusually cool summer.

New Products Mead Packaging has been very active in developing over-

seas markets, and we expect their sales will continue to grow substantially, particularly in Europe.

Our Paperboard Products and Technical Papers divisions have both been successful in developing new products and new markets. Mead Paperboard Products has gotten excellent market acceptance of a new product, Mead-Wud (registered), used in the interiors of medium-priced desks, chest, and dressers.

One of the major products of the Technical Papers Division is decorative laminating papers, used in production of laminated wall paneling, counter-tops, and furniture surfaces. The slow-down in home construction in '67 had some negative effect, but there are signs that residential construction is picking up.

Westab, Mead's major entry in the educational products market, has continued its fine performance.

Optimistic On '68 After five consecutive years of higher earnings, Mead's profits will be lower in 1967. This has been a year in which we've absorbed a great many of the start-up expenses of the new Northwood Pulp mill in British Columbia and the new linerboard mill in Mahrt, Ala. We've also had start-up costs at four new container plants.

We won't be faced with start-up expenses of anything like this magnitude in 1968. On the other hand, we have had wage increases which aren't matched by increased productivity. And depreciation is a larger expense; Mead and its affiliated companies have brought roughly \$150 million of new facilities on line in just over a year.

It's too soon to predict fourth-quarter earnings. We were about 20 per cent below last year's earnings at the end of the first nine months of '67. Despite the uncertainties, we are fairly optimistic that earnings will increase in '68. We feel that if Mead's business in '68 is only as good as that in '67, our earnings performance will improve.

Primary reasons for the traffic increase were the company's new 100-passenger DC-9 fan jets and Convair 580 prop-jets, which provide greater speed and carrying capacity. North Central now operates three DC-9's. Two more jets are being delivered in January, and another five by June. The company also has options on five additional DC-9's.

Eight Convair 580's are in scheduled operation, with two more being added in January, and 10 on order. Options are held for another 13. The DC-9's, combined with the Convair conversion program, will give North Central an all jet-powered fleet in 1968.

## New State Tax On Real Estate Transfers Begins

A new tax on real estate transfers went into effect in Michigan Jan. 1, replacing a similar tax by the federal government, according to County Clerk and Register of Deeds William E. Butler.

The Michigan tax has the same value (55 cents per \$500 consideration or fraction thereof) as the federal documentary stamps, Butler said, but revenues from the tax will remain in the counties.

"This tax will be imposed strictly on real estate transfer," he added.

One of the main differences with the federal stamp, he continued, is that the Michigan real estate transfer tax stamp

is required to be on the deed or transfer of property prior to it being accepted for recording in the county Register of Deeds office. He said the federal act did not require the stamp at the time of recording.

Michigan stamps are sold in Delta County at the Register of Deeds office in the Delta County Building.

"If the deed does not contain the total consideration paid for a property, an affidavit must be completed by either of the parties to the transaction, their legal representatives or the party or person liable for the tax declaring the value of the property transferred," Butler continued. "The affidavit is considered part of the instrument and a recording fee shall be charged."

Butler pointed out that the affidavit would be needed, for example, when property changes hands "for \$1 and other valuable considerations."

"If the instrument or transfer is exempt from the real estate transfer tax (according to provisions established by law), then a real estate transfer tax exemption affidavit shall be completed by either of the parties of the transaction, their legal representatives or the grantor who would normally be liable for the tax," Butler said.

"This affidavit also becomes part of the instrument and shall be recorded and a recording fee charged, Butler said.

A recent determination by Atty. Gen. Frank Kelley specifies that all real estate mortgages, land contracts, real estate mortgage assignments and discharges of real estate mortgages shall include the proper tax exemption affidavit, Butler added.

## Jesse Freeman Taken By Death

Jesse James Freeman, 80, of Engadine, died Jan. 1 at 5:30 a. m. at the Palmer Nursing Home in Palmer, Mich.

He was born Oct. 23, 1887 in Vassar, Mich., and he spent all his life in the Engadine area. He married the former Anna McGraw in 1909.

For the past 16 years had served as township treasurer of Garfield Township. He had also been employed by the Michigan State Highway Department as foreman.

His wife preceded him in death in 1951.

Survivors include two sons, John Freeman of Marquette and Ronald Freeman of Mt. Pleasant; one daughter Mrs. Quinton (Eula) Lee of Cedar Springs, Mich.; one half-brother, Joseph Freeman of Engadine; one sister, Mrs. Elizabeth Sprague of Flint; three half-sisters, Mrs. Ruth Hastings of Engadine; Mrs. Ella Richmond of Detroit; and Mrs. Joseph Murphy of Tampa, Fla.; 10 grandchildren; and 11 great-grandchildren.

Friends may call at the Messier-Broullier Funeral Home after 4 p.m. Wednesday. Complete funeral services will be held at 10:30 a.m. Thursday at the funeral home. Burial will be in the Engadine Cemetery.

## Coho Fete Now Set For March 8

DETROIT (AP) — A celebration of the success of introducing Coho salmon as a sport fish in Michigan has been rescheduled from Jan. 19 to March 8 next year in Coho Hall in Detroit. The State Chamber of Commerce said the change in dates was necessary to insure attendance of some special guests who are to be cited for their work in stocking Michigan streams with the Coho. Popularity of the Coho has caused a boom in the state's fishing sport.

## Gift Is Bit Late

PITTSBURGH (AP) — Christine Eaman's gift for her sixth birthday is arriving 10 years late.

A secretary for Judge Samuel Strauss of Allegheny Court found an envelope addressed to Christine in a lawbook while researching a point of law.

The envelope, with a birthday card and \$1 enclosed, apparently was inadvertently used as a book mark.

Strauss added a two-cent stamp to the three-cent stamp on the envelope and mailed it to Christine, who is now 16.

Vicuna wool is soft, fine and silky.

## Treloar Will Serve Panax As Consultant

With publication of last Saturday's edition, Wilbert H. Treloar of Marquette ended 42 years' active association with Upper Peninsula newspapers.

His retirement as publisher of the Panax Northern Division newspapers, effective today, was announced several weeks ago.

John McGoff, Williamston, Panax president, today announced that Treloar will be available to the Northern Division newspapers — The Mining Journal, Escanaba Daily Press and Iron Mountain News — primarily in a public relations capacity, under a two-year agreement.

Treloar will continue to make his headquarters in Marquette and will have office space in The Mining Journal building, but will not be identified with the daily operations of any of the newspapers.

Treloar also will serve the Panax Corp. on an assignment basis.

## Weather Watcher Moves From Soo

MUSEKOGON (AP) — There is a new "weather watcher" at the U.S. Weather Bureau in Muskegon. He is Francis L. Zillins, transferred from the Environmental Science Services Administration station at Sault Ste. Marie where he spent 10 1/2 years. Zillins succeeds meteorologist Rollin Mannie who was assigned to Indianapolis, Ind.

## Problem By Gift

The U. S. Forest Service apparently has been the beneficiary of a windfall in the donation of 17,124 acres in Baraga and Marquette counties by the estate of the heirs of Cyrus H. McCormick, inventor of the reaper.

Deeding of 1,800 acres this week and plans for turning over the remainder of the estate to the Forest Service next year were announced. By coincidence, Gordon McCormick of Chicago, who had arranged to give the land to the federal agency, died Dec. 20, and the announcement of the estate transaction came on the day of his funeral.

Assuming that the entire woodland estate passes to the Forest Service, the tract would be administered by the Ottawa National Forest, which only last year acquired a parcel in Gogebic County of about the same size (18,000 acres) from the Fisher and Christiansen estates for use as a recreational area known as Solvonia. But, whereas the federal government paid \$5,740,000 for the Solvonia tract, it would receive the McCormick tract as a gift.

The McCormick tract would not be used as a recreational area but as a research unit similar to the Dukes Experimental Forest, which is located at the other end of Marquette County and administered by the Hiawatha National Forest. The McCormick unit, like the Dukes unit, would be used as woodlands laboratory for experiments conducted under the direction of the Lake States Forest Experiment Station in St. Paul, Minn., and its Northern Hardwoods Research Laboratory in Marquette.

The timber industry remains one of the major economic forces in the Upper Peninsula, and research conducted at the McCormick unit undoubtedly would benefit this industry and the entire Peninsula. Viewed from this limited perspective, acquisition of the McCormick property by the Forest Service represents a desirable development.

But the development creates misgivings. Elected officials in Spurr (Baraga County) and Michigamme (Marquette County) townships, fear the effect of the transfer of large private holdings to public ownership and the consequent erosion of the tax base.

Ad valorem taxes on private lands greatly exceed the revenue returned to local governmental units from publicly-owned lands of equal size and value. In lieu of taxes, the Forest Service turns back to the local governmental units 25 per cent of its receipts according to the amount of land located within those units. On the Ottawa Forest last year, this amounted to about 13 cents an acre. Privately owned forest lands usually return about 23 cents an acre in the Upper Peninsula.

The reduction in tax revenue severely hurts the townships and counties that are effected. Further compounding the problem is the earmarking of these "in lieu of taxes" revenues for school and road building purposes, which ties the hands of the township and county in allocating these funds.

Another problem arises from the fact that national forest receipts, which are pegged primarily to timber sales, fluctuate from year to year according to the market for woods products, thus complicating planning and budgeting for township and county operations.

The time when any large land gift to the government should be a subject for public rejoicing with no thought of its public value should be gone.

After the generosity of the gesture has been acknowledged—Mr. McCormick was asked to sell the lands to the state and declined—there should be a consideration of how such a gift affects the public interest. The gentlemen of the Forest Service welcome it as a valuable contribution to the federal forest holdings, which are already so huge in the Upper Peninsula that they constitute a serious problem for support of local government by eroding away the property tax base.

Presumably the McCormick lands will serve some research purpose which the Dukes Experimental Forest for the study of northern hardwoods will not serve. The gift specifies that these lands are to be used for research. Small wonder that the officials of the local governments which will lose them as a tax base feel that they are also making a contribution to the memorial.

The condition that the lands are to be a research memorial strikes us as unfortunate and limiting their usefulness.

The solution for this sort of problem-by-gift rests with the federal government and it is now studying the situation with a view to correction in the Public Land Law Review Commission, whose review has just been extended. Hopefully its studies will help set up a system which will strike a balance between the public and private interests in Upper Peninsula landholdings. If the federal and state governments are to continue their steady erosion of private forest ownership in the Upper Peninsula, they should be compelled to assume the public obligations which the previous private ownerships bore.

The Upper Peninsula has very serious problems of creating a school system of as good quality as that in the Lower Peninsula. This is a handicap of huge size for our youth. The state government, and particularly federal government, contribute to this injury by removing the tax base which bears the local cost of schooling.

## People, Events Of Yesteryears

From the files of the Escanaba Daily Press

### 25 Years Ago

Lynn Spink, superintendent of timber construction on the Escanaba ore docks project, related some of his interesting experiences in Liberia and Iceland at the regular noonday luncheon of the Escanaba Rotary Club.

### 30 Years Ago

George W. Kauffman of 824 Hale St., has had in his possession for the past 40 years a 1818 one-cent copper piece. Although it is 100 year old, the coin is in excellent condition. It weighs almost twice as much as the present penny. Mr. Kauffman also owns a rare coin minted in 1851.

Escanaba residents who attend the University of Michigan, Ann Arbor, and who have returned to school after the vacation, include: John Perrin, Harold Lindsey, Ernest Cooney, Ned Moran, Phil Both, Alfred Corcoran, Marjorie King, and Dorothy Resdie.

VISITING WASHINGTON in November was this group to urge the Federal Aviation Authority to reconsider its denial of aid to Escanaba Airport so it could be developed for the handling of jet airliners in 1968. From left: Mayor Harold Vanierberghe, Councilman H. George Nelson, Chairman Charles Sedenquist of the Delta County Board of Supervisors, City Consulting Engineer Kenneth Buckland and Councilman Cecil Chase. (Daily Press Photo)

## Trolley Car Alderman Wouldn't Recognize Jet Set Officials

By JEAN WORTH

Americans of today travel much more than their parents or grandparents.

The automobile has put the nation on wheels and jet air travel has brought all cities of the nation within hours of each other. (And yet, the airlines say, as they seek more business to fill their big planes, that most Americans never get farther from their homes in the course of a year than a hundred miles or so.)

But those who do travel zoom about as though there were no long distance telephone services and so they have to see Joe in person.

While travel is growing the other means of communication—mail, telephone, teletype, etc., are also increasing in volume.

**Expense Account**

The complexity of modern living calls for travel by many persons who even a generation or two ago could stay their business lives out at their home desk.

The rise of professionalism has made a big contribution to this rush-about syndrome. And so has the expense account.

The expense account is a modern device which has flourished not only because government, business, education, the professions and other activities have need for contacts that require travel, but also because it is a tax gimmick. It is usually accepted as a legitimate business expense, although the Internal Revenue Service spends a lot of money and time each year checking up on businessmen and professionals who use it with what the IRS regards as needless generosity.

The government, of course, feels that it is paying in part

for this high flying because if it didn't let the credit card crowd travel at company expense, the companies would show more profits and these would be taxable by Uncle Whiskers.

**Japs Are Champs**

There have been periodic tightenings of the regulations on expense accounts and tax lawyers tell their clients that they'd better have the stubs and receipts for their expenditures and had better not take their wives along on business trips unless they can type, sell, speak and perform other business chores which clearly establish the business legitimacy of their presence on the cruise to the Bahamas for the annual sales conference of the tractor company.

In Japan the expense account dodge is even more widely used than in America and current government efforts to reduce it are reported doomed because Papa San in Japan takes his paycheck home to Mama San and his only chance of getting out on the town is under the pretense that it's a business visit to the B-girls Bar or geisha house.

**Educational Cost**

Top expense account travelers in the Upper Peninsula include government employees and officials. Education's trippers are busy too. Schools now budget for the travels of their faculty—administration members. The rise of professionalism makes it harder to control such costs because manual training, musical, science, counseling, math, home ec, business, and other branches of teaching all have their professional groups with conventions to attend. Finally, harassed su-

perintendents wonder who's going to be home keeping the store. (The superintendents have their own associations, of course.)

The new dimensions of occupational travel bring some public criticism, but not much. Congressional junketing has received much more adverse at-

## Escanaba

When Escanaba's city delegation went to Washington to get FAA airport aid, it sought out ex-Escanabans like Atty. Wendell Lund and Lawrence Hartwig of the Defense Contract Renegotiation Office. Their welcome was "real warm old home folks style," said the Escanabans.

Councilman Cecil Chase said that Hartwig reported that the year's Michigan dinner for ex-Wolverines now living in Washington had brought out 86 persons, of whom 42 were from the Upper Peninsula, which has only about 3 per cent of the state's population. And of the 42 there were 30 from the Escanaba area!

tention than junketing by state legislators. And there hasn't been much comment on local government travel, although official travel has grown greatly.

### Of Our Times

There seems to be belief that it is inevitable that this go-go generation will pack up and visit its governor or congressman or the Bureau of Cohos or Aid To Sewerage Bureau at the first sign of need.

The growing complexity of government suprs travel. An example was the November visit of a delegation from the City of Escanaba to Washington to confer with Federal Aviation Authority officials on federal aid for the Escanaba Airport development project for 1968. The port is to be developed for jet airliner service, but allocation of FAA funds was so far short of the project budget that it would have doomed 1968 service.

### Good Ratio

The rescue mission included 6 city and county officials and consultants and cost about \$1,500. But it got \$150,000, apparently, that will be needed to do the construction work in 1968. The expenditure is a good one in the sense that Escanaba didn't lose a crucial year in development of jet air service just as it steps into a new era of industrial expansion which calls for such service.

There might be raised eyebrows at the size of the delegation, but the most valid beef in this situation should be against a federal government bureau which put the city to this expense to get, finally, a grant to which the city was entitled under federal regulations and under any sensible system of priorities and merit. The likelihood is that this type of official travel will increase, not decrease. It is done to correct inefficiencies in government and, of course, it makes government more expensive but happier and it helps it serve public needs better.

**Boom-Boom Diplomacy**

There is also a justification of sorts in the educative value

## Build Vietnam Village At Soo

SAULT STE. MARIE (AP)—An original Vietnamese village, including all the pit falls, snares, traps, underground tunnels and booby traps which the Viet Cong are using against the U.S. soldiers in Vietnam, will be constructed as part of Sault Ste. Marie's Tricentennial celebration.

Major Thomas P. Kaine, chairman of the Military Science Department at Lake Superior State College and a veteran of the Vietnam conflict, says the village will be 200 x 100 yards and will be constructed with the cooperation of the local national guard unit and ROTC students.

Kaine says the village will be modeled after an original that has been erected for training purposes at Ft. Riley, Kan. It will include 10 thatched huts, a Vietnamese shrine and a Buddhist shrine. One part of the village will be connected by tunnels.

He says the village will serve the dual purpose of teaching visitors about the obstacles in Vietnam, and also provide a counter guerilla training area for ROTC members.

## Ann Landers

## Threshold Poses 'Weighty' Problem

Dear Ann Landers: I am going to be married next month and my bride-to-be is a very romantic girl. Bernice has all sorts of movieland ideas about what a marriage should be and I hate to disappoint her, but I want to get one thing settled beforehand and I need your help.

Bernice has made frequent references to my carrying her over the threshold on our wedding night. She weighs about 25 pounds more than I do and, what's more, I have a bad back. When my back knoks out on me, Ann, I am as good as dead for at least three days. Please tell me what to do about this awkward situation. — HANK

Dear Hank: If your back knoks out, Bernice will be a whole lot unhappier than if she has to give up some of her movieland ideas. Tell her she'd better walk across the threshold and you'll hold her hand instead.

Dear Ann Landers: There ought to be a published guide for grandmas who buy gifts. Since no one has published such a guide, will you please print mine? It's too late for Christmas but it might come in handy for Easter.

1. Remember the gift is for the child, not his parents. What might impress the living daylight out of Mom and Dad could fall flat with the youngster.

2. Don't buy a gift with the idea it will break in a few days but the kids will have a lot of fun while it lasts. Such a gift is a waste of money and encourages children to be destructive and wasteful.

3. Know the clothing size of the child and buy for the year he is in. A dress or a suit or a bathrobe means nothing to a youngster who must wait until next year to grow into it.

4. Don't buy war toys or guns or knives for kids (even if they don't actually "work"). Children should not grow up with the idea that killing is the way to prove superiority, or that war is fun.

5. If you don't know what a child wants or needs, ask his mother. If she says, "Oh, anything you bring will be all right," tell her you don't want to bring "just anything." Insist on a practical suggestion.

6. Don't feel that you must bring your grandchild a gift every time you show up. This is how kids get into the habit of saying, "What did you bring

me?" — instead of just being glad you came to visit. — I HAPPEN TO HAVE SOME PICTURES

Dear Hap: Thank you for some extremely sensible suggestions. I have never seen a Gift Guide for Grannies and yours will certainly do until something better comes along.

Dear Ann Landers: Yesterday my wife and I went to church. We left the house in a hurry because the alarm clock didn't go off and we overslept. When the collection plate was passed my wife dug in her pocketbook and discovered she had left her coin purse at home. I reached for my wallet and realized I had left it on the dresser.

The people on either side of us looked appalled when we didn't put anything in the plate. One woman nudged the man next to her and whispered something. We are new in this community and do not know many people in our church. My wife says I should have explained to those around us the circumstances of our not giving. I disagree with her and we got into a big argument. What do you say? — NOT CHEAP JUST ABSENT-MINDED

Dear Ab: You don't give to the church to impress the observers, do you? Well then, why explain? Double your contribution next week and buy a new alarm clock.

Do you feel ill at ease . . . out of it? Is everybody having a good time but you? Write for Ann Landers' booklet, "The Key to Popularity," enclosing with your request 35c in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a stamped, self-addressed envelope. Copyright 1968, Publishers-Hall Syndicate

## BARBS

By PHIL PASTORET

They call them "cross-walks" because there's no one in a worse temper than a pedestrian trying to make it from curb to curb.

Long for the good, old days? Just try and find a house number by the light of a buggy lamp.

3♥	4♣	5♥	1♠
Pass	Pass	Pass	6♣
Opening lead—♦ 2			

With the king of diamonds as potential defense he chose to pass. Thus, when it came to Ira he was pretty sure that he could set six spades, but he couldn't double. His double also would be showing no defense.

Phil opened the deuce of diamonds. Ira won with the ace while South dropped the jack. Then Ira proceeded to think for five minutes. At the end of that time he led back the three of clubs!

This gave South a chance for a five minute huddle of his own. He had given up all hope when the diamond was opened. Now he might bring home the impossible contract. He let the club ride around to dummy's jack, drew one trump and led a club back to his ace. Phil trumped and cashed the king of diamonds for a two trick set.

We are not going to commit ourselves as to whether we would have made Ira's lead. He had reconstructed South's hand exactly and gained 100 points, but somehow or other we might have taken life easy and returned the diamond.

The three heart bid by Phil Feldesman who sat West was one of those preemptive jump overcalls designed to jam the opponents' bidding. Ira's jump to five hearts was a continuation of the jamming process, whereupon South decided to do a little jamming of his own and jumped to six spades. He didn't know if he would be able to make it. He rather hoped that East and West would be stampeded into a seven heart save.

Unfortunately for North and South, Phil and Ira use a convention we have named the undouble. It applies in this situation. With no defense at all Phil would double six spades.

**TODAY'S QUESTION**

Instead of passing, East bids two hearts. What do you do now?

Answer Tomorrow

## CARD Sense

Q—The bidding has been: West—North—East—South 1♠—Pass—Pass—Pass. Dble—Pass—Pass—?

You, South, hold: ♠ J4 ♦ K109543 ♣ 7543

What do you do?

A—Bid two diamonds. It is worth while to try to find a better spot.

## Pig Crop Slips

LANSING (AP) — Michigan's 1967 pig crop is reported at 1,039,000 head by the Michigan Crop Reporting Service, one per cent less than the previous year.

## Kent Joining Health Dept.

James H. Kent

James H. Kent, geologist here with the Michigan Department of Conservation, will be transferred and promoted as geologist to the Michigan Department of Public Health on Jan. 8, according to John E. Vogt, chief of the department's Division of Engineering.

Employed by the Geological Survey Division for the past 10 years, Kent worked in the Water Section in the Lansing office before coming to Escanaba in 1960. He has made ground water studies in both peninsulas of Michigan and has acted as owner's representative during the construction, development, and testing of water wells on state lands.

In his new assignment in the Water Supply Section of the Division of Engineering, Kent will help in the administration of Michigan's Ground Water Quality Control Act by regulating the drilling of water wells and pump installations, registering and regulating water well drillers and pump installers, and providing drilling records for home owners, local health departments, and the Department of Conservation.

He was graduated from Shattuck Military Institute in Fairbault, Minn., Michigan State University, and the University of Michigan.

A Korean War veteran, he has been active since coming to the U.P. in the U.S. Army Reserves, in which he carries the rank of major.

He has also been active in St. Stephen's Episcopal Church, and serves as lay reader for the Diocese of Northern Michigan, a past president of the Delta County University of Michigan Alumni Club, past secretary-treasurer of the Michigan Basin Geological Society.

Kent, his wife Diane, and their children, Susan, Alan, and Barbara, will reside at 120 Chanticleer Trail, Lansing.

## Mrs. Trudell Dies Sunday

Mrs. Elvina Trudell, 97, formerly of 316 S. 8th St., died at 1:45 a.m. Sunday at the Pine Haven Nursing Home. She had been in ill health for the past three months.

Mrs. Trudell was born Dec. 23, 1870 in Quebec, Canada and had resided in Escanaba for the past 65 years. She was a member of St. Anne's Church and the Catholic Order of Foresters. Her husband Frank died Dec. 7, 1940.

She is survived by one son, Wilfred of Escanaba; two daughters, Mrs. Earl (Loretta) Paquin of Rte. 1 Escanaba and Mrs. Irvin (Elizabeth) LaFave of Escanaba; 12 grandchildren, and 42 great grandchildren.

Friends may call at the Alto Funeral Home from 3:30 to 9:30 p.m. today and Catholic Order of Foresters will recite the Rosary at 4 p.m. Parish prayers will be held at 8 p.m.

Funeral services will be conducted at 9 a.m. Wednesday at St. Anne's Church with Rev. Stephen Mayrand officiating. Burial will be in Holy Cross Cemetery.

4% DAILY INTEREST AT

NORTHERN MICHIGAN NATIONAL BANK ESCANABA BARK RIVER, RAPID RIVER

## Served Bank For 52 Years

The retirement of William L. Leiper of 521 S. 7th St., assistant cashier of the Northern Michigan National Bank ends an association that began 52 years ago — when banking was a much less complicated operation than it is today.

Now computers and machine processing are as routine in banking operations as was hand posting of checking accounts back on June 1, 1916, when Leiper began work as a bookkeeper for what was then the Escanaba National.

Two years ago, at the half-century mark of Leiper's service to the Bank, he was honored at a testimonial dinner.

Now, at his retirement, he is the recipient of a gift presented by Stack Smith, president of Northern Michigan National Bank — a two-week vacation for two in Hawaii or any other place of his choice.

"We at Northern Michigan National Bank are losing a real asset when Bill retires, and we only wish that he could be with us for another 52 years," said Smith.

Leiper and his wife, Harriet, will postpone their vacation trip to a later date, they said. It's something they are planning for but meanwhile "we are going to settle down and spend the winter in Escanaba," said Leiper.

The Leipers were married (she was the former Harriet Shepherd of Escanaba) in Escanaba in 1927. They have two married daughters and several grandchildren.

A graduate of the Escanaba High School in 1912, Leiper's first job was with the Chicago & North Western Railway as a clerk and caller and in the freight house. Then on June 1, 1916, he began as a bookkeeper with the Escanaba National Bank when it was located in the 600 block, Ludington St., where the offices of Goodman Division of Calumet & Hecla Inc., now are.

Leiper was called to work at the Bank by the late Matt Smith Sr., the father of today's Northern Michigan National Bank President, Stack Smith, and the grandfather of the Bank's Executive Vice President Matt Smith.

Two years after Leiper came to the employment of the Bank, it was moved to its present location at Ludington and 8th St., and through the past 52 years he has seen the business of the financial institution grow and prosper and expand, until it now includes the most modern facilities and a branch at Rapid River.

## Mrs. Sjoberg Dies Saturday

Mrs. Najma J. Sjoberg, 86, of 521 S. 17th St., died at 7:30 p.m. Saturday at St. Francis Hospital where she had been a patient for one week.

She was born in Sweden June 16, 1881 and her husband John died in 1934. Mrs. Sjoberg was a member of the Calvary Baptist Church, the Order of Runeberg and the Evening Star.

She is survived by two daughters, Mrs. Edward (Anna) Weber and Mrs. Alva Thornton of Escanaba; two sons, Robert of Escanaba and Alvar of Melbourne, Fla.; 10 grandchildren, 37 great grandchildren and three great great grandchildren; two sisters, Mrs. Arthur Lindstrom of Escanaba and Mrs. Albert Lindstrom of Kingsford.

Friends may call at the Anderson Funeral Home from 4 to 9 p.m. today and complete funeral services will be conducted at 1 a.m. Wednesday at the funeral home with Rev. David Brostrom officiating. Burial will be in Gardens of Rest Cemetery.

## Reeve Renamed Bank Director

Joyce A. Swan, publisher of the Minneapolis Star and Tribune, has been redesignated chairman of the Federal Reserve Bank of Minneapolis for 1968.

Atty. Robert F. Leach of St. Paul was appointed deputy chairman and Byron W. Reeve, president, Lake Shore, Inc., Iron Mountain, Mich., was named to a second three-year term as class C director.

WILLIAM LEIPER (left), assistant cashier of the Northern Michigan National Bank, receives the congratulations of Stack Smith, president of the Northern Michigan National Bank, and a gift of a two-week vacation for two to Hawaii or other place of his choice on the occasion of Leiper's retirement after 52 years with the bank. (Daily Press Photo)

## State Mishaps Claim 27 Lives

By The Associated Press

Twenty-seven people lost their lives on Michigan roads during the New Year's holiday period, including nine who were killed in three triple fatal accidents and four more who were killed in double fatalities.

The Associated Press count started 6 p.m. Friday and ended last midnight.

Last year's New Year's toll was 26.

Ten of the fatalities occurred after the start of the New Year. Last year's toll amounted to 2,075, more than 200 fewer than the 1966 total of 2,296 killed on the state's highways.

## Stocks Extend Year-End Rally

NEW YORK (AP) — Airlines with service overseas were hit hard by selling as the stock market posted a gain early today. Trading was active.

Gains outnumbered losses by about 7 to 4 and the Dow Jones Industrial Average was ahead more than a point.

Unsettled by President Johnson's proposals to curb tourist travel abroad by Americans, Pan American World Airways sank more than a point and TWA nearly 4. Northwest Airlines sank more than 2. World Airways, a charter flight specialist, sank more than a point. Pfizer toppled about 8 points and American Cyanamid about 2½ following a guilty verdict in an antitrust case.

U.S. Treasury bonds rallied sharply on news of President Johnson's new program.

The President's declared war on the widening gap in the balance of payments upset the gold mining stocks on the big board. Homestake, the biggest U.S. gold producer, sank more than 2 points.

The weekend accumulation of business and economic news seemed more favorable than unfavorable, brokers said.

## Obituary

EUGENE HANSEN

Complete funeral services for Eugene Hansen were held at 11 a.m. Monday at the Anderson Funeral Home with Rev. Philip Lyon officiating. Burial was in Gardens of Rest Cemetery.

MRS. ONA HUNT

Complete funeral services for Mrs. Ona Hunt were held at 1 p.m. Monday at the Anderson Funeral Home with John Small officiating. Burial was in Gardens of Rest Cemetery.

NESTER MATTILA

Funeral services for Nester Mattila were held at 1:30 p.m. Sunday at the Skradski Funeral Home with Rev. Peter Laaninen officiating. Burial was in the Rock Cemetery. Pallbearers were William Lund, Ray Johnson, Onnie Johnson, Albert Weldum, Alphonse and Wilfred LaCosse.

MRS. HUGH RAY

Funeral services for Mrs. Hugh (Florence) Ray were held at 9 a.m. Tuesday at St. Joseph's Church with Rev. Isadore Walter officiating. Burial was in Gardens of Rest Cemetery. Pallbearers were Clarence Ray, Francis Rogers, Rene Saborin, Merle Gregory, Robert Ray and Eugene Brunette.

## Elliott Retires

KALAMAZOO (AP) — Clarence H. Elliott, 65, city manager at Kalamazoo the past 17 years, announced that he will

retire this summer, ending a 38-year career in public administration. Before coming to Kalamazoo, Elliott served at Oak Park, Plymouth and Jackson.

## Donald Tolman Dies Suddenly

Donald D. Tolman, 37, of 1412 N. 19th St. died suddenly Sunday morning at his home. He was born Feb. 21, 1930 and had spent most of his life in Escanaba.

He was a member of St. Thomas Church and had been employed as a custodian at Marco's Restaurant.

He is survived by his mother, Mrs. Orville Tolman of Escanaba, two brother, Mearle and Warren of Escanaba and six sisters, Mrs. Leonard (June) Williams and Mrs. David (Charlotte) Peterson of Appleton, Wis., Mrs. Joseph (Carol) Klotz of Rte. 1 Gladstone, Mrs. Theodore (Nancy) Broeders of Wells, Mrs. Roderick (Alice) Boucher and Mrs. Gary (Orville) Sedenquist of Escanaba.

Friends may call at the Deegan-Crawford Funeral Home from 3 to 9:30 p.m. today and parish prayers will be recited at 8 p.m. Funeral services will be conducted at 9 a.m. Wednesday at St. Thomas Church with Rev. Arnold Thompson officiating. Burial will be in Lakeview Cemetery.

## Primrose Boosts '68 Scholarships

William Primrose, former Escanaba investment specialist, today announced an increase of \$550 in the total amount of his scholarship grants to three area high schools for 1968 graduates to attend Bay de Noc Community College and Michigan Technological University.

A total of 13 graduates will share \$3,350 in Primrose Scholarship awards this spring. Last year, Primrose awarded \$2,800 in scholarships.

He said the increase was made because of a rise in tuition at Bay de Noc Community College where 11 of the 13 recipients selected will attend.

Primrose said the funds for the scholarships are already on deposit with the First National Bank and Trust Co., of Escanaba. Distribution of the awards will be made about July 5.

Eight \$250 scholarships will be awarded to Holy Name High School graduates to attend Bay de Noc. Three \$250 awards will be made to Gladstone High School graduates, also to attend Bay de Noc, and two \$300 scholarships will be made to Manistique High School graduates to attend Michigan Tech.

Primrose said that the Manistique awards are for Michigan Tech because it is cheaper for out-of-county residents to attend Michigan Tech than to attend Bay de Noc.

Primrose, of Milwaukee, has awarded thousands of dollars in scholarships to graduates of local high schools in recent years. He has also made substantial gifts toward special education, church groups, crippled children and an orphanage at Marquette.

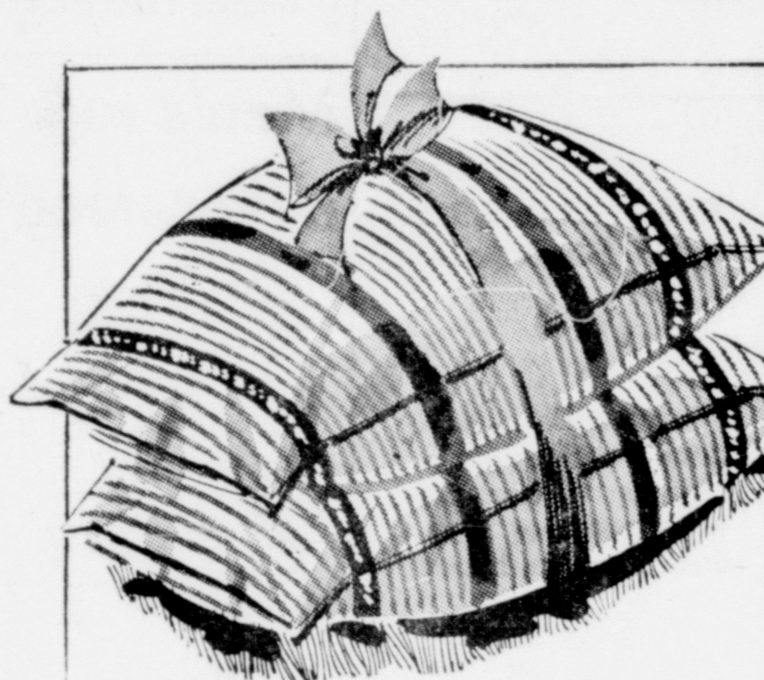

The scholarship grants are in memory of his mother, Mrs. Minnie Primrose Eaton; his father, William Primrose; his stepfather, Joseph Eaton, and his brother, Edward.

## Ferry Boat Fete

SEATTLE (AP) — One of the movingest New Year's parties was held aboard the ferry Illahee. The party, complete with noisemakers, paper hats, candelabra, food, drink and tape-recorded music, was held by eight commuters who sit together throughout the year on the 35-minute trip from Bainbridge Island.

## P. J. Duffrins Mark Their Silver Wedding

Mr. and Mrs. Philip Duffrin

Mr. and Mrs. Philip J. Duffrin of 1426 N. 20th St. celebrated their silver wedding anniversary Saturday, Dec. 23 with a reception for relatives and friends at their home.

Mrs. Duffrin received her guests attired in a two piece silver and gold knit dress with brown accessories and she was presented a corsage of red rosebuds. A money tree and a triple tiered wedding cake centered the buffet table at the reception.

Philip Duffrin, son of the late Mr. and Mrs. Charles Duffrin of Stephenson and the former Stella Godlewski, daughter of the late Mr. and Mrs. Adolph Godlewski of Daggett were married on Nov. 21, 1942 in Gainesville, Texas, where Mr. Duffrin was serving with the Armed Forces.

The wedding took place at St. Mary's Catholic Church with Rev. John P. Brady officiating. Honor attendants for the couple were Mr. and Mrs. Arnold Christensen of Superior, Wis. They were unable to attend the reception on Saturday.

The Duffrins are the parents of one daughter, Mrs. Robert (Phyllis) Haworth of Charleston, S.C. Mr. and Mrs. Haworth were present for the anniversary celebration.

Out of town guests attended from Green Bay, Wis., Marinette, Wis., Menominee, Mich., Peshtigo, Wis., Marquette, Daggett and Bark River.

Haiti is the only French-speaking republic in the western hemisphere.

## Stewardess Ends Job On Freedom Flight

MIAMI, Fla. (AP) — An attractive French-born U.S. citizen who flew to Cuba twice a day for four months but never saw more than the airport at Veradero has ended her nerve-racking job. Beatrice del Perugia was a stewardess on National Airlines flight 901—the freedom flight that carries 90 Cuban exiles on each trip from Veradero to Miami International Airport.

The flights have brought about 100,000 Cubans here since they began with two flights each weekday. The flights have been suspended this week until Wednesday because of the anniversary celebration in Cuba of the formation of Fidel Castro's government nine years ago today.

Miss del Perugia got the assignment because she speaks four languages. She was a student of Russian and government at the University of Miami. She said she plans to marry in June and hopes to use her speech skills to become a translator.

In a letter to her successor, Miss del Perugia advised that the short hop is no milk run.

"For 45 minutes you are in a full cabin of 90 terrified people; they sit numb, like zombies," she wrote. "They're frightened of flying, of leaving their homeland permanently, of the new life which awaits them in a foreign country with an unfamiliar tongue."

"Some are still frightened of the possibility of not coming at all and all have irrevocably left families behind. You can watch their fright gradually melt and change to elation."

What happens during the wait at the air terminal when the empty plane reaches Veradero? "The Cuban officials try to ignore us. They're not rude; they just act as though we didn't exist," she said. "There's nothing to do."

Thoughts of strolling away for sightseeing were scotched by the experience of a stewardess friend who did and was chased by counterspy types, she said.

BERGER — Mr. and Mrs. Russell R. Berger of Wilson welcomed their first child, a son, Russell Richard Jr. at 1:29 a.m. on Dec. 31. The infant weighed 7 pounds and 4 ounces at birth. Mrs. Berger was Karen Pavlat.

SORG — A son, Kenneth Carl, weighing 5 pounds and 6 ounces was born to Mr. and Mrs. David C. Sorg III of Gladstone Rte. 1 at 4:03 p.m. on Dec. 31. The infant is the first child in the family. The mother was Pamela Trudeau.

WHEELER — At 12:17 p.m. on Jan. 1 a daughter, Catherine Mary, weighing 10 pounds and 6 ounces was born to Mr. and Mrs. James B. Wheeler of Powers. Mrs. Wheeler is the former Carol Godin.

MR. AND MRS. Paul Niemi of Eben Junction announce the engagement of their daughter, Lillian Elizabeth to Spec. 4 Michael J. Bartlett, son of Mr. and Mrs. Jay Bartlett of Rock. Miss Niemi will graduate from Eben High School in May of this year and her fiancé is presently serving with the U. S. Army in Vietnam. The wedding will take place in December of 1968.

By HELOISE CRUSE

Dear Heloise:

I'll bet many readers don't know this old trick of the easy way to peel an orange. All they need to use is a spoon instead of a knife or fingernail!

Insert the pointed tip of the spoon into the stem end and pull out the rind and inside stem. Then finish peeling the orange with the side of the spoon like you would use a knife. The spoon takes off the extra bits of white skin without cutting into the orange.

Helen Orme

Dear Heloise:

Can you rewarm instant rice? If so, please tell me how.

Budgeteer

You most certainly can and let me tell you the way I do it.

Don't add any water to it. Just put it in the top of your double boiler and be sure that you put enough water in the bottom part to barely touch the pan you have dumped your rice in.

Put a tight lid on. If you give the lid a slight twist after it starts steaming—or run water over the inside of the lid before putting it on, you form a vacuum. Then just let it steam.

Before serving, stir with fork, turn out the fire and put the lid back on. Twist it again and let set about five more minutes.

You'll think you cooked fresh rice.

Heloise

Dear Heloise:

Adhesive-backed plastic is certainly practical to use for re-covering a card table.

Wishing to camouflage a cigarette burn, I inquired about having it re-covered and found it to be too expensive.

So, I bought some extra-wide adhesive-backed plastic in a pattern resembling leather and covered it myself. Have received many compliments on it.

Lolli

Dear Heloise:

I couldn't find any heavy red material inexpensive enough to use under my lace tablecloth. Charles Beckingham will lead the Bible study. Members are asked to bring bibles. Mrs. lace and looks lovely, but can be used later to line things with.

A Reader

## Events

### Hospital Auxiliary

The St. Francis Hospital Auxiliary will meet Wednesday, Jan. 3, at 2 p.m. in the Doctor's room at the hospital.

Mrs. Ralph Anderson, program chairman, will show slides on her recent trip to South America. There will be a short board meeting at 1:30 p.m.

THE RIOT SQUAD, which has recently produced a recording of "Come On, Let's Go," and "Ferry Cross the Mersey," includes from left, Bob Anzalone, Gregg Curran, Jim Joke, Dan Curran and Brendon Williams. The recording is a product of Peninsula Records, which has just been organized by the group's booking agent, Gene Smiltneck. (Lee's Studio Photo)

### The Riot Squad Plays Two Sides

## Smiltneck Starts Record Firm; Cuts First Platter

Gene Smiltneck, booking agent for the Riot Squad, a local rock and roll orchestra, announces that a recording by the group, "Come On, Let's Go," and "Ferry Cross the Mersey," has been produced and will be available here soon.

The record is on the Peninsula Record label, which began as a dream of Smiltneck that has finally been realized.

Members of the Riot Squad are Dan Curran, Gregg Curran, Bob Anzalone, Jim Joke and Brendon Williams. They all reside in Escanaba and attend the local high schools. The boys range in age from 14 to 18 years and have been organized as a group for about two years.

At present they play engagements on weekends throughout the Upper Peninsula and Northern Wisconsin. The boys own their own equipment, which they paid for themselves with money obtained from their engagements. They have also recently purchased a van for transportation.

Gene Smiltneck has resided in Escanaba for about two years and was the former manager of the Club-A-Go-Go here. He is employed by the Michigan Consolidated Gas Co.

Smiltneck, who had his own orchestra when he lived in Menominee, says, "Musicians are an odd lot, living in a mystical world and always

hoping for a big break and stardom. After having musical groups through my school days and finally trying to make a living as a professional musician and band owner until I married, I decided that with my new responsibilities I'd better retire at the age of 22. It was then that I opened Club-A-Go-Go in Escanaba.

"My intention was honorable, but bad publicity and a shortage of capital forced me to go out of business when I was on the verge of bankruptcy. A bank came to my aid with a loan, I obtained a job with the Gas Co. and met a wonderful group of kids called the Riot Squad.

"Having been a musician and more or less knowing the ropes of the business, I began having them to my house for practice sessions and this led to an arrangement by which I became their booking agent. Last spring we began talking about recordings and I realized that my dreams were still at hand and that I could still have something to do with the recording industry.

"We began to work up some arrangements on a few songs and in September we decided that there was more to gain than to lose in producing a record featuring the Riot Squad. I began to make arrangements which led to the birth of Peninsula Records in December and our first recording. We are excited about the record and have high hopes for its success. We plan to promote on a local basis and will expand our efforts if the acceptance warrants."

A total of 19 pedestrians were killed in the Upper Peninsula, five of them in Delta County.

The total traffic death toll of 13 in Delta County was an increase of five from 1966.

Marquette County had the most traffic deaths in 1967 with 17. Delta County was second, followed by Houghton, 10; Mackinac, 9; Iron and Menominee, 8; Gogebic, 6; Chippewa and Dickinson, 5; Alger and Schoolcraft, 4; Baraga, Luce and Ontonagon, 3; and Keweenaw, 1.

State Police said there have been no traffic deaths so far in 1968.

## Arson Suspected In Carpeting Fire

POMPANO BEACH, Fla. (AP) — A million dollars worth of carpeting was destroyed Monday in a warehouse fire that investigators suspect was set by someone who ransacked files and desks before the blaze.

Robert Salame, co-owner of the Boston Rug Co., said about one million yards of carpeting was a total loss, most of it by water damage.

State Police said there have been no traffic deaths so far in 1968.

## U.P. Accidents Take 99 Lives

The Upper Peninsula escaped the New Year's holiday period without a fatal traffic accident, but failed to match the progress made throughout the year in Michigan.

State Police reported that 99 persons died on Upper Peninsula highways in 1967, only two short of the record high of 101 in 1966.

By contrast, state traffic deaths declined about 200 in 1967, a drop of nearly 10 percent from the total of 2,243 fatalities in 1966.

State Police said the upturn

in fatal accidents in the past two years in the Upper Peninsula could not be attributed to any single cause, although "considerably more traffic" is noted on U. P. roads each year.

Officers said the majority of the deaths came from single-car accidents.

A total of 19 pedestrians were killed in the Upper Peninsula, five of them in Delta County.

The total traffic death toll of 13 in Delta County was an increase of five from 1966.

Marquette County had the most traffic deaths in 1967 with 17. Delta County was second, followed by Houghton, 10; Mackinac, 9; Iron and Menominee, 8; Gogebic, 6; Chippewa and Dickinson, 5; Alger and Schoolcraft, 4; Baraga, Luce and Ontonagon, 3; and Keweenaw, 1.

# Fairbanks Leads Sooners To Orange Bowl Triumph Over No. 2 Ranked Team

MIAMI (AP) — Oklahoma's quick-striking Sooners, a team built out of adversity, could claim the nation's No. 2 college football ranking today after a wild and dramatic 26-24 victory over Tennessee in the Orange Bowl.

But 34-year-old Coach Chuck Fairbanks, who took the helm at Oklahoma when Jim Mackenzie died suddenly during spring practice, was claiming nothing except heavenly protection.

"The Good Lord was looking after us," said Fairbanks, dripping wet after being dunked into a shower in the tumultuous dressing room of the Sooners.

Quarterback Bob Warmack stunned second-ranked Tennessee with a brilliant running and passing performance that moved No. 3 Oklahoma into a 19-0 halftime lead.

But the Big Eight champions had to hang on grimly against the resurging Volunteers in the second half. They got to Warmack for two interceptions that

## Punt Runbacks Victory Factor

MONTGOMERY, Ala. (AP)—The Gray squad may do well to recruit a punt return specialist next year after what happened in the Blue-Gray football game Saturday.

The Blue won 22-16 because All America Dick Anderson of Colorado ran back two punts for touchdowns. It was that simple.

The Gray had a 15-9 edge in first downs and a 270-175 advantage in total offense. The Sooners did practically everything well enough to win except contain Anderson.

Tulsa Coach Glenn Dobbs of the Blues called Anderson's punt returns—of 62 and 69 yards—"the most tremendous I've ever seen."

"I've never seen anybody get hit that hard by would-be tacklers and still keep his feet and go on to score. It really was unbelievable," Dobbs said.

Anderson was voted the game's most valuable player. Except for his touchdown runs, the Blue was limited to 32- and 26-yard field goals by Notre Dame's Joe Azzaro and a safety in the closing minutes when half-back Bobby Duhon of Tulane was tackled in the South's end zone.

Anderson's punt returns established a Blue-Gray record.

Ronny South of Arkansas and Auburn's Freddie Hyatt also put the Gray in the record setting business with a 58-yard touchdown pass, the longest in the game's history.

South connected with Hyatt for the Gray's other touchdown and kicked a 35-yard field goal.

Sharing valuable player honors with Anderson were All America tackle Wayne Melan of Nebraska, outstanding North lineman; Hyatt, the South's top back, and Tom Russell of Southern Mississippi, the Gray's top lineman.

South connected with Hyatt for the Gray's other touchdown and kicked a 35-yard field goal.

Sharing valuable player honors with Anderson were All America tackle Wayne Melan of Nebraska, outstanding North lineman; Hyatt, the South's top back, and Tom Russell of Southern Mississippi, the Gray's top lineman.

Anderson's punt returns established a Blue-Gray record.

Ronny South of Arkansas and Auburn's Freddie Hyatt also put the Gray in the record setting business with a 58-yard touchdown pass, the longest in the game's history.

# Simpson Is Difference As Southern Cal Beats Hoosiers In Rose Bowl

PASADENA, Calif. (AP) — Southern California's O. J. Simpson achieved his dream of playing in the Rose Bowl and turned it into a nightmare for the Hoosiers of Indiana.

The All-America halfback scored both touchdowns as the Trojans captured the 54th annual classic 14-3 and cemented their hold on the national collegiate football championship.

Simpson gained 128 yards, net in 25 carries as the speedy workhorse of the Trojan attack.

"Southern California, with Simpson, is the national champion," declared Coach John Pont of Indiana. "You could give Simpson to some of the other teams we played and then they'd be the best."

O. J. turns his athletic talents to the running track on Friday night in an indoor meet in his San Francisco hometown but declared he plans to return to football and won't try for the U.S. Olympic team.

"He'll get better," was the pronouncement from USC Coach John McKay, who termed himself pleased with his club's performance against the Big Ten representatives.

Southern California scored on their first series of plays, driving 84 yards in 13 plays as Simpson gained 38 in six carries, including the final two.

A fumble cost USC another first-half touchdown as Dan Scott lost the ball in the end zone. In the third period, Simpson gained 28 yards in four carries on a 45-yard touchdown advance. He burst the final edge as Ron Yary and Dennis Borne opened the hole for him.

Indiana's only points came on a 27 yard second-quarter field goal by Dave Kornowa.

McKay revealed the strategy for keeping Indiana from keying too much on Simpson, the 200-pound junior who runs the 100-yard dash in 9.4 seconds.

"We started passing on first down to get the linebackers out of there and gave the ball to Scott more than usual," the coach said. Scott contributed 85 yards in 18 carries as Simpson would swing wide as a decoy.

The Trojan coach also termed the defensive effort one of the best for this season as the winners contained quarterback Harry Gonso and halfback John

Anderson's punt returns established a Blue-Gray record.

Ronny South of Arkansas and Auburn's Freddie Hyatt also put the Gray in the record setting business with a 58-yard touchdown pass, the longest in the game's history.

narrowed the margin to 19-14 in just two minutes, 10 seconds of the third period.

And it was not until Tennessee's soccer-style field goal kicker, Karl Kremser, narrowly missed from 43 yards that the issue settled with 14 seconds left on the clock.

Running and passing for 188 yards in the first half, Warmack scored one touchdown on a seven yard run, threw 20 yards to Eddie Hinton for another, and led a 74-yard drive ending with a one-yard scoring lunge by Steve Owens.

"That first half was my greatest of the season," Warmack said, "but that second half had to be the poorest."

Tennessee's roving monster man, Jimmy Glover, picked off a flat pass from Warmack and raced 36 yards to score. Two minutes later, Jim Weatherford snatched another Warmack heave and returned it from the 31 to the Oklahoma 17. Tailback Charley Fulton scored from the five and it was a new ball game.

A 26-yard field goal by Kremser, son of a refugee from Communist Germany, narrowed that margin to two points, 19-17.

Then Oklahoma's Bob Stephenson intercepted a pass by quarterback Dewey Warren of Tennessee and raced 25 yards for the decisive touchdown. Warren scored from the three with 4:05 left.

A fourth-down gamble or-

dered by Fairbanks in Oklahoma territory with only inches to go failed and Tennessee moved down to the Sooner 21, where Kremser made his desperate try as a record crowd of 77,993 roared its excitement to the bitter end.

"I almost blew it," Fairbanks said. "I thought it was the right thing to do. It wasn't."

"Football is a game of emotions, with ups and downs," said Tennessee's disappointed coach, Doug Dickey. "In the first half, we just weren't ready to play and they simply out-executed us."

"But I'm proud of the way my boys came back. It was abelluva ball game with a great Oklahoma team comparable to the best of the Southeastern Conference."

In other games, the Dayton Gems went on their second scoring spree in as many nights to clobber the Port Huron Flags 16-3, and the Toledo Blades rallied to score a 7-6 victory over the Columbus Checkers.

Ford's hat trick came in the second period, when the Mohawks scored five goals. Individual Muskegon goals were scored by Pierre LeBlanc, Bryan McClay, Jack Brewer and Bob Smith.

Fort Wayne's lone tally was scored by Len Thompson in the second period.

Cliff Bristow and Barry Merrill both scored hat tricks for the second straight night in the Dayton Gems' scoring rampage. Sunday the Gems walloped Toledo 15-1. Sid Garant also scored three goals against Port Huron.

Dayton sent seven shots sailing into the nets in the final period as they broke the league's single-game scoring record, set by them the previous night.

The Toledo Blades scored five goals in the final period in overtaking Columbus. Acting coach Chick Chalmers scored twice for the Blades in that period, with Barry Jakeman making the winning tally with less than three minutes to play.

Columbus dominated the action in the first two periods, with Ken Sutyla scoring twice for the Checkers.

# Esky Hosts Mountaineer Cage Squad

Iron Mountain, the team which has been coming close, could learn this week if it will be a factor in Menominee Range and Great Northern Conference basketball campaigns.

The Mountaineers, who compiled a 14-2 record last winter only to lose a district test to Menominee by six points, are 2-2 for the current season. They lost the opener to that same Menominee team by only one point, but were walloped later by Stambaugh, 77-60, for their worst setback in two years.

Playing their first season under Coach Willard Butler, the Mountaineers will tackle Escanaba in a Great Northern test and Norway in a Menominee Range match. It's the third season they've been competing in two leagues, but the Range circuit is being disbanded this year.

Escanaba, whose only losses to date have been to all-winning Menominee and Ishpeming, should be a good test for Iron Mountain. Escanaba, the perennial big-school (Class A) champion of the Peninsula, has started shaping up under another first-year coach, Bill Howes. The Eskymos lost most of last year's regulars, with Howes using reserves and newcomers to build his team around Dan Mylander. The latter was a regular as a sophomore last year.

Butler undoubtedly is trying to beef up his guard posts to gain more outside shooting strength. Up front he's got a capable trio in Brian Ouimette, one of the outstanding players in the U.P.; John Webb and Rudy Steiner. Ouimette and Webb were regulars last year; Steiner the top reserve.

While Iron Mountain will be trying to improve its standing in two conferences, the leaders in those leagues should have comparatively easy going. Menominee, which walloped Marinette Catholic Central just before Christmas, will take on that same quintet on its home court. The game should be a non-league warmup for the Maroons, who take on stalwarts like Ishpeming and Marinette later in the month. Crystal Falls, also undefeated, will go against Range opponent Niagara, a week prior to meeting Iron Mountain.

Crystal Falls, also undefeated, will go against Range opponent Niagara, a week prior to meeting Iron Mountain.

Iron Mountain, the team which has been coming close, could learn this week if it will be a factor in Menominee Range and Great Northern Conference basketball campaigns.

The Mountaineers, who compiled a 14-2 record last winter only to lose a district test to Menominee by six points, are 2-2 for the current season. They lost the opener to that same Menominee team by only one point, but were walloped later by Stambaugh, 77-60, for their worst setback in two years.

Playing their first season under Coach Willard Butler, the Mountaineers will tackle Escanaba in a Great Northern test and Norway in a Menominee Range match. It's the third season they've been competing in two leagues, but the Range circuit is being disbanded this year.

Escanaba, whose only losses to date have been to all-winning Menominee and Ishpeming, should be a good test for Iron Mountain. Escanaba, the perennial big-school (Class A) champion of the Peninsula, has started shaping up under another first-year coach, Bill Howes. The Eskymos lost most of last year's regulars, with Howes using reserves and newcomers to build his team around Dan Mylander. The latter was a regular as a sophomore last year.

Butler undoubtedly is trying to beef up his guard posts to gain more outside shooting strength. Up front he's got a capable trio in Brian Ouimette, one of the outstanding players in the U.P.; John Webb and Rudy Steiner. Ouimette and Webb were regulars last year; Steiner the top reserve.

While Iron Mountain will be trying to improve its standing in two conferences, the leaders in those leagues should have comparatively easy going. Menominee, which walloped Marinette Catholic Central just before Christmas, will take on that same quintet on its home court. The game should be a non-league warmup for the Maroons, who take on stalwarts like Ishpeming and Marinette later in the month. Crystal Falls, also undefeated, will go against Range opponent Niagara, a week prior to meeting Iron Mountain.

# Bruins, Cougars Remain 1-2 Among College Teams

By The Associated Press  
The old year tournaments and the new year Associated Press poll brought a revamping of college basketball's Top Ten and its unbeaten today except at the top where, year out, year in, UCLA and Houston remain 1-2.

The overpowering Bruins, 8-0, collected 36 first place votes and 369 points and the Cougars, 13-0, got the other No. 1 vote and 320

points as they strengthened their clique at the top with tournament victories.  
The voting is done by sports writers and sportscasters throughout the country on a basis of 10 points for first place, nine for second, etc.  
UCLA won its own Los Angeles Classic for the sixth straight time Saturday after routs over Minnesota, St. Louis

and Wyoming for 42 consecutive triumphs. The Bruins topped Wyoming 104-75 in the title game. Houston, less impressive, bounced Bradley, Marquette and then edged North Texas State 45-43 for the Rainbow Classic title in Honolulu.  
Few changes are expected until the two powerhouses collide in Houston's AstroDome Jan. 20.

But behind them, the teams are bouncing about like a basketball as three new teams entered the Top Ten, all unbeaten, and three of last week's ranking clubs dropped from the undefeated list.  
The newcomers are Oklahoma City, 8-0, ranked eighth after winning its own All-College Tournament by beating Brigham Young 91-88 Saturday; St. Bonaventure, 9-0, ranked ninth after whipping Baldwin-Wallace 81-69, and New Mexico, 10-0, which won its own Lobo Invitational Thursday for the 10th spot.

Indiana had the roughest time as it entered the All-Sports Tournament in Dallas unbeaten with a No. 3 ranking only to lose to Western Kentucky and SMU and plummet from among the chosen.

Davidson, ranked eighth before losing to Vanderbilt 80-67 in the Sugar Bowl final Saturday, and Boston College, No. 10 before losing twice in the Holiday Festival in New York, also dropped from the Top Ten.

North Carolina, 7-1, won the Far West Tournament with a 68-61 victory over Oregon Saturday and replaced Indiana in the third spot, a jump from fifth.

Vanderbilt's victory and 9-1 record pushed it from ninth to fourth while Kentucky, 7-1, moved up a notch to fifth with an 81-73 victory over Notre Dame in non-tournament play.

Tennessee, 6-1, lost its first game in the Los Angeles Classic and fell from fourth to sixth despite later victories over Southern California and then Utah State 85-66 Saturday in the tourney.

Utah, 10-1, was the third ranked team to lose for the first time, falling to North Carolina in the Far West Classic, but topped Washington State 85-78 Saturday in the tournament and retained its No. 7 ranking.

In other tournaments, Cornell stopped Rochester 84-57 for the Kodak Classic championship; Mississippi tripped Hardin-Simmons 65-63 in the Pointsettia Classic final; Detroit won the Motor City title by beating Niagara 102-91; Evansville took its own invitational with a 76-67 triumph over Florida State, and Texas A&M beat San Francisco 77-75 for the American Legion title.

Only a handful of games were played Monday night, with New Mexico pushing its record to 11-0 with an 87-76 victory over Denver.

Penn beat Boston University 75-56 and St. Joseph's, Pa., took Brigham Young 88-74 in a doubleheader at Philadelphia. Mississippi State edged Florida 56-55 and Georgia topped Mississippi 70-64.

Southern Mississippi at Tulsa was canceled because of snow that prevented the Mississippi team from traveling.

The Top Ten, with first-place votes in parentheses, and total points on a 10-9-8-etc. basis:

1. UCLA (36)	369
2. Houston (1)	320
3. North Carolina	266
4. Vanderbilt	219
5. Kentucky	199
6. Tennessee	125
7. Utah	111
8. Okla. City	98
9. St. Bonaventure	49
10. New Mexico	30

BOSTON BRUIN GOALIE Ed Johnston (1) comes up empty handed without his stick after he made a save on shot by Detroit Red Wing Ted Hampson (16) at Detroit. Boston defenseman Don Awery (26) pushes Hampson away as the rebounding puck goes in the other direction. Detroit won, 6-4. (AP Wirephoto)

# Orange Bowl Rally Falls Short By Scant Two Feet

By The Associated Press  
Southern California's Rose Bowl ordeal didn't disappoint John McKay but Tennessee's Orange Bowl comeback fell short of Doug Dickey's expectations by two feet.

O. J. Simpson broke loose for 128 rushing yards and two touchdowns as McKay's struggling national champions defeated stubborn Indiana 14-3 Monday in the Rose Bowl at Pasadena, Calif.

In Monday night's Orange Bowl Classic at Miami, second-ranked Tennessee, coached by Dickey, almost erased a 19-point halftime deficit before bowing to No. 3 Oklahoma 26-24 when Karl Kremser's 46-yard field goal attempt sailed two feet

wide with 14 seconds to play.  
In the other annual New Year's Day football attractions, Texas A&M forged a 20-16 Cotton Bowl upset over Alabama at Dallas and Louisiana State rallied for a 20-13 Sugar Bowl triumph over previously unbeaten Wyoming at New Orleans.

Last Saturday, Penn State and Florida State attled to a 17-17 standoff in the Gator Bowl at Jacksonville, Fla.; Texas-El Paso stunned Mississippi 14-7 in the Sun Bowl at El Paso; the East topped the West 16-14 in the Shrine All-Star classic at San Francisco and the Blue beat the Gray 22-16 at Montgomery, Ala.

"I'm well satisfied, but I know a lot of people won't be by that 14-3 score," Coach McKay said after the heavily favored Trojans, slowed by injuries, outlasted Indiana to spoil the Hoosiers' first trip to Pasadena.

Simpson, Southern Cal's All-American halfback, made the difference, scoring on a two-yard plunge in the second quarter and an eight-yard run in the finale. He carried for 48 of the Trojans' 84 yards in the first scoring drive and 28 of their 45 yards in the second.

Dave Kornow's second-quarter field goal averted a shutout for the Big Ten co-champions.

"We knew Simpson was going to get yards," said Indiana Coach John Pont, "and I have no complaint against our defense. We had people climbing all over him."

Tennessee, trailing 19-0 at intermission, closed the gap to 19-17 on Jimmy Glover's 36-yard touchdown jaunt with a pass interception. Charley Fulton's five-yard scoring run and a 25-yard field goal by Kremser. But Bob Stephenson then picked off a Dewey Warren pass and raced 31 yards for the Sooners' decisive touchdown.

Warren's one-yard dive capped a 77-yard Tennessee scoring drive in the closing minutes and the Vols got another life when Oklahoma gambled — and lost — on a fourth-and-inches bid in its own territory.

Warren marched them to the Oklahoma 21 before they were thrown back, and Kremser then missed the last-gasp field goal attempt.

"Football is a game of emotion," said Pont.

Clark Has Leg On Top Trophy  
JOHANNESBURG (AP) — Jim Clark of Scotland has a leg up on the 1968 world driving championship and cherished record in his pocket.

Clark, driving a powerful Lotus Ford, won the South African Grand Prix Monday, first championship race of the 1968 Formula One series. And it was his 25th career victory in a Grand Prix, breaking his tie with Juan Manuel Fangio, the retired Argentine great, and putting him alone as the biggest winner if all time.

Clark took the lead in the second of the 80 laps around the Kyalami circuit and held it the rest of the way. He finished the 204 miles in one hour, 53 minutes, 56 seconds for an average speed of 107.42 miles per hour.

Smith's slashing off-tackle runs and the second-half passing of Nelson Stokley. LSU's often-injured quarterback, sent Wyoming's 14-game winning streak down the drain.

# Wyoming String Ended By LSU In Sugar Bowl

NEW ORLEANS (AP) — Mowing down undefeated teams in bowl games is nothing new for Louisiana State's football team and its burly head coach, Charlie McClendon.

But no one expected an unheralded substitute halfback named Smith to be the star this time.

The Tigers' 20-13 comeback victory over unbeaten, untied Wyoming in Monday's Sugar Bowl made it the third time in six years that LSU has snapped winning streaks of their opponents in postseason classics.

Hero of the Tiger victory on the soggy Sugar Bowl turf was sophomore second-string halfback Glenn Smith, who came off the bench late in the third period to breathe new life into LSU's faltering offense.

"Anybody could have done it," said Smith, who ran for 74 yards and caught a key pass for 39 yards. "I was just lucky it happened to be me." The 185-pound, 5-foot-11, New Orleans native was voted the game's outstanding player.

Wyoming Coach Lloyd Eaton, trying for his first victory in a major bowl game, agreed that Smith was the key man — but he attributed LSU's victory to team depth more than anything else.

"They could substitute freely at each position," he said. "We tired in the fourth quarter."

Wyoming built up a 13-0 halftime margin behind a rugged defense, the passing of quarterback Paul Toscano and the place kicking of Jerry DePoyster. LSU made only one first-half first down.

But then LSU again turned into its role of spoiler — just as it had snapped a 22-game winning streak by Arkansas in the 1966 Cotton Bowl and topped unbeaten Texas in the 1963 Cotton Bowl.

Smith's slashing off-tackle runs and the second-half passing of Nelson Stokley. LSU's often-injured quarterback, sent Wyoming's 14-game winning streak down the drain.

tion, with ups and downs," said the dejected Dickey. "It was a good kick. A couple of feet to the left and that would have been the difference."

"If it hadn't been for Kremser (who booted 10 field goals during the regular season), we wouldn't be here tonight."

Pupil beat teacher at Dallas as Gene Stallings' Aggies upended Paul "Bear" Bryant's Crimson Tide in their first bowl appearance in 26 years. Stalling played for Bryant at Texas A&M and was an Alabama coaching aide before returning to the Aggies.

Edd Hargett fired two touchdown passes and Wendell Housley rambled 20 yards for the winning score in the third quarter. Kenny Stabler scored twice and Steve Davis kicked a 6-yard field goal for Alabama.

ISU spotted Wyoming a 13-0 halftime lead, then bounced back behind quarterback Nelson Stokley, who threw two touchdown passes to Tommy Morel, and reserve halfback Glenn Smith, who carried for 74 yards and a touchdown.

The Cowboys, who had won all 10 of their regular season starts, mounted a desperation drive in the closing seconds that carried to the LSU four-yard line before time ran out.

# Bulls Register Narrow Victory Over Baltimore

By The Associated Press  
The Chicago Bulls built up a whopping, 20-point lead in the third quarter, but had to stage a last minute revival to stand off Baltimore 109-103 in a National Basketball Association game Monday night.

In the only other NBA game, the St. Louis Hawks overwhelmed the Seattle SuperSonics 115-94 on the West Coast.

Dallas beat New Jersey 122-104 in the only American Basketball Association game scheduled.

The Bulls rushed out to a 75-55 edge late in the third period before Baltimore, led by Kevin Loughery and LeRoy Ellis, began a comeback.

The Bulls cut it to 105-103 with seven seconds to go, but Flynn Robinson and Keith Erickson each hit two free throws to pull it out for Chicago.

Robinson finished with 34 points and Erickson had 24. Ellis topped the losers with 32.

St. Louis whipped Seattle for the fourth time in a row this season, pulling away in the second half. The Sonics built an early 10-point lead but the Hawks were ahead 48-47 at halftime.

Coach Al Bianchi of Seattle was ejected with 9:34 to go after drawing two technical fouls for disputing a goal-tending call too strenuously. Lenny Wilkens converted the foul shots and St. Louis opened its biggest lead at the point, 88-72.

Wilkens and Bill Bridges col-

# State Employees' Suggestions Win Bonuses In Cash

LANSING (AP)—A meat inspector, a janitor, a cashier, a state police trooper and a nurse are among the rank and file state employees who have hit the civil service suggestion jackpot for large and small cash bonuses.

Donald Brousseau, a custodian at the Alpena Armory, suggested marking armory floors for drill and basketball games with sensitized tape instead of sanding and painting new markings.

Savings in the first year are

estimated at more than \$500. Brousseau won \$50 for his idea.

Ruth Angell, a cashier at the Northville State Hospital, noticed that visitors needing change had to wait and also were taking up the time of state workers to make small change.

She won a \$55 award for the saving in clerical time and the service improvement.

## Eliminate Guard

Logan Beckwith, a meat inspector at the State Agriculture Department and former prison guard, came up with an idea that allowed the elimination of one guard position at the gate of the State Prison of Southern Michigan.

No one was fired because of the number of guard vacancies and the extra guard was transferred to an inside position.

Beckwith won \$800 for his idea.

State Police Trooper Philip Nielsen of East Lansing won \$20 for suggesting a writing light on the passenger side of State Police cars so troopers could fill out reports at night while riding as passengers.

Grant Allen, an attendant nurse at the Mount Pleasant State Home, won \$50 for devising a bath tub sling to support patients being bathed.

Top award winner so far was Thomas Hostlin, an audit supervisor for the revenue division of the State Treasury.

## \$1,000 Top Award

He was awarded \$1,000 for suggesting the elimination of unneeded field trips by examiners checking on delinquent taxpayers. It is estimated the idea saved the state \$11,000 the first year.

"Executives and researchers don't necessarily have a corner on the big and good ideas in state government operations," said Franklin Dewald, state personnel director.

"The state recently honored its top ten suggesters and four of the ten were clerks, four were technicians and two were supervisors."

There have been 275 suggestions approved since the program was started 18 months ago. Savings which could be measured accurately totaled \$118,000.

There has been \$12,039 paid out in awards so far and 690 suggestions still are to be screened.

# U. S. Smokers Set New Mark

WASHINGTON (AP)—Affluence and military demands, factors that helped produce record cigarette consumption by Americans in 1967, are likely to bring an even higher figure in 1968, the Agriculture Department says.

Americans, including troops overseas, have puffed their way through 532 billion cigarettes this year, the department said.

There are more people of smoking age now and they have more money to spend on cigarettes, the department said in citing probable causes of the record total. Heavy shipments to service installations overseas also help push up consumption, the department said.

The 1967 total is 11 billion cigarettes higher than 1966. The last time the annual figure took a downturn was 1964 after the U.S. surgeon general issued a report branding cigarette smoking a possible health hazard.

## Curtis

Mrs. Ella Diller is a patient at Schoolcraft Memorial Hospital at Manistique.

Mrs. Robert Swisher and Miss Lorena Swisher of Dexter visited at the home of Lorena's parents Mr. and Mrs. Richard Swisher for a few days.

Mr. and Mrs. Delmer Humphrey Jr. of Grand Ledge and Mr. and Mrs. John Sheppard and sons of Manistique visited Humphrey Sr. over the Christmas holiday.

Mrs. Grace Gish is visiting her daughter and husband, Mr. and Mrs. George Sheppard and family at Roseville.

Mrs. Anne Crisler is visiting relatives in Ohio.

Mr. and Mrs. Harry Wickam are visiting their daughter and family at Pinconning and also relatives near Saginaw.

Mrs. Elizabeth Archey accompanied Robert Feneley to Naubinway Monday and spent Christmas day with him and his family there.

Mrs. Mae Howard spent Christmas Day visiting at the home of her daughter, Mrs. Dolly Bouchard and family at Newberry.

Guests of Mr. and Mrs. Sam Brown Sr. were their children, Mrs. James Thomas, her husband Jim and son Michael, of Carrolton, Mich. Sam Brown Jr. and wife of Curtis and Mrs. Brown's sister, Evelyn Gimmel of Germfask.

Mrs. Ethel Stark spent Christmas Day at the home of her son Edgar Smith and family at Curtis.

George Smith and sons Joe and Gerald of Trenton, are visiting relatives at Curtis, Germfask and Shingleton for a few days.

## S&L Assets Gain

LANSING (AP)—The savings and loan business in Michigan chalked up "steady, sound gains" during the past year, according to Donald F. Wall, executive vice president of the Michigan Savings and Loan League. Assets in the state's \$3.7 billion business rose eight per cent or \$350 million dollars during the year, Wall said.

ARMY PVT. Michael B. Quinn, 25, son of Mr. and Mrs. Thomas X. Quinn, 705 S. 10th St., Escanaba, fired expert with the M-14 rifle near the completion of basic combat training at Ft. Campbell, Ky. The expert rating is the highest mark a soldier can achieve on his weapons qualification test. Pvt. Quinn graduated from Marquette University Law School, Milwaukee, and received his J. D. degree in 1967. He is a member of Delta Theta Phi fraternity.

## Shift From Coal To Save Millions

WASHINGTON (AP)—Army and Air Force installations could reduce costs several million dollars a year by converting manually operated coal furnaces to automatic gas or oil heating units, government investigators reported.

The investigators, in the General Accounting Office, said a study of 12 military bases, including Selfridge Air Force Base, Mount Clemens, Mich., showed these conversions would cut costs about \$3.5 million each year, primarily by releasing military personnel for other duties.

From 1908 to 1935, five violent earthquakes killed over a half-million persons in China, Italy, Japan and Pakistan.
